PSA Genova Pra' is in charge of booking.	200,00	per container

GENERAL CONDITIONS OF "VGM" WEIGHING OPERATION for export containers by truck (N.B. only at PSA Genova Pra' weighing station - national area)

PSA Genova Pra' has decided to provide these services and the related fees in order to preserve the regularity of the operations and not to have the units come to the PSA Genova Pra' areas without VGM data. In any case, PSA Genova Pra' reserves the right to change the rates according to the needs and the trend of the weighing service.

- according to SOLAS 74/78 regulation, the subject responsible for obtaining and documenting the "Verified Gross Mass" (or "VGM") of a packed container is "the Shipper". Containers without "VGM" cannot be loaded onto any ship;

- data must be communicated "sufficiently in advance" ;

- at the moment of the delivery of the container at the Terminal, "VGM" data should have been already submitted to the Terminal;

- art. 13 of the Guidelines IMO MSC.1/Circ.1475 – Annex recalls the option of containers without VGM arriving at container terminals premises, and empowers terminal operators to obtain VGM data

- as of 22 June 2016 for those containers in lack of a VGM data and bound to be shipped at PSA Genova Pra' on vessels with ETA after 30 June 2016 00.01 hrs, our Terminal will not allow (and/or, in any case, reserves its right not to allow) the access in the custom bounded areas.

The "VGM" weighing service ("The Service") will be integrated with the Terminal Operating System (TOS) and with the Port "VGM".Community System (PCS) "E-port" and it is dedicated to containers bound to be shipped at PSA Genova Pra' on vessels with ETA beyond 30 June 2016 00.01 hrs. Such service is provided to avoid any possible and residual lack of "VGM" data.

The Service is available for all PSA Genova Pra' Web Portal Users (Agents and Forwarders) - (<https://online.psagp.it/>); the subject who will request for the service on PSA Genova Pra'system will receive the bill for the service. The Service is available for containers delivered by truck and bound to be shipped on vessel calling PSA Genova Pra' with a live export booking (COPARN already recorded in PSA Genova Prà-systems).

The Service reservation can be performed by online authentication at <https://online.psagp.it/> provided that general conditions are accepted.

The Service reservation is only valid for the day the weighing is requested and any booking cancellation can be done without any penalty clause up to 24hrs before the selected date for the Service.

The system has a maximum capacity of 400 weighings/day accordingly PSA Genova Pra' Gate working hours. In case of the exceeded capacity, another day can be selected.

The Service is provided by PSA Genova Pra', or on behalf of PSA Genova Pra' from a designated party in charge (authorized by PSA Genova Pra' to invoice), in a dedicated area opposite Psa Genova Pra' -Gate.

F.R. (also not OOG) and break bulk are excluded by The Service - please contact Marketing Offices (psagp-marketing@globalpsa.com) for this type of cargo

The Service is integrated with PSA Genova Pra' TOS and with PCS E-port.

VERMAS OUT to E-port will be produced by PSA Genova Pra' TOS on weighing.

Anyway VGM data will be copied in CODECO file sent to Agents (Container Operator) after export containers gate in (at least at the beginning of the Service).
